Thank you for purchasing Cygnett's GrooveToons speaker & alarm clock system. Now you can wake up to your favourite iPod tunes.

iPod is a trademark of Apple Inc., registered in the U.S. and other countries.

Your GrooveToons .....	2
Docking .....	3 - 4
Setting up Power Supply .....	5
Setting Automatic Clock Display .....	6
Setting Alarm .....	7 - 8
Snooze Operation .....	8
Other Operation .....	9

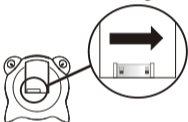

- ① Volume '-'      ② Volume '+'      ③ 9V DC IN      ④ LINE IN  
 ⑤ SNOOZE      ⑥ POWER      ⑦ Dock for iPod nano G3

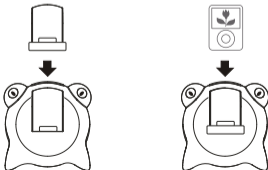

**Step 1a** - iPod nano Generation 3

A special insert is included for use with iPod nano Gen 3. Please follow the following steps to correctly dock your iPod nano Gen 3:

- 1) Move the dock connector to the right

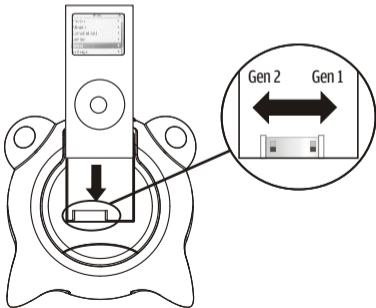

- 2) Slide the insert carefully on top of the dock connector. Then carefully dock the iPod.

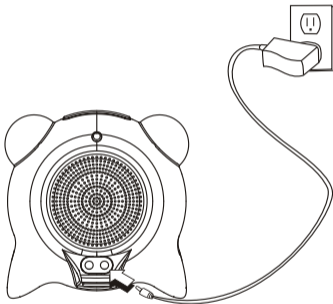

**Step 1b** - iPod nano Generations 1 & 2

Dock iPod into Docking Station. The dock can be repositioned depending on which generation nano is to be used. Slide the dock into the correct position for your generation nano.

Step 2

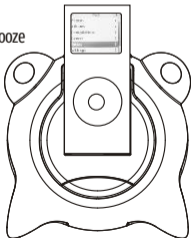

Plug power adaptor into “9V DC in” on rear of Groovetoons unit. Connect adaptor to wall socket.

**Step 3**

Your nano may automatically display time when docked on your Groovetoons unit. If it does not automatically display the clock it can be displayed automatically by doing the following.

- 1) Hold down the snooze button for 3 seconds and go into the main menu.
- 2) Press the snooze button to move to 'Extras'. Press the snooze button for 3 seconds over 'Extras' to enter the menu.
- 3) Press and hold the Snooze button over 'Clock' to enter the clock.
- 4) Power cycle the GrooveSnooze by turning the power off at the wall.

After programming the clock view as above, the ipod nano will automatically display the clock when docked in the GrooveSnooze unit.

**Step 4a**

- 1) Choose Extras > Alarms.
- 2) Choose Create Alarm and set one or more of the following options:
  - a. **Turn the alarm on.** To turn the alarm on choose 'Alarm' and choose On.
  - b. **Set the time.** To set the time Choose 'Time'. Use the Click Wheel to change the selected value. Press the Center button to move to the next value.
  - c. **Set the date.** To set the date Choose 'Date'. Use the Click Wheel to change the elected value. Press the Center button to move to the next value.
  - d. **Choose a sound.** Choose a tone or playlist. If you choose playlist, select the playlist you would like to hear when the alarm triggers. (Please note the speaker unit must be on, in iPod mode to hear through speakers).
  - e. **Set a repeat option.** To set a repeat option choose 'Repeat' and choose an option (for example, "weekdays").
  - f. **Name the alarm.** To name the alarm choose 'Label' and choose an option (for example, "Wake up").

### Step 4b

- 1) Enter the main menu of your ipod and select 'extras' and then 'clock'
- 2) Select 'Alarm' and set the time(s) for your alarm(s)
- 3) Go back into the clock display mode
- 4) Press pause when you want to stop your iPod and sound. iPod will automatically play again when alarm initiates

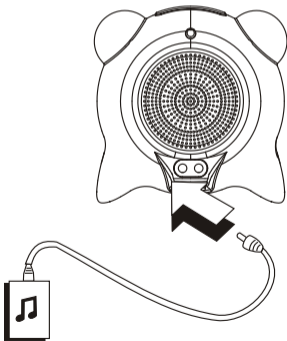

### Step 5

#### Snooze operation

Press the snooze button on top of the unit after alarm sounds. The alarm will snooze for approximately 9 minutes before it sounds again. (Note snooze and alarm function only operates with iPod nano)

**Step 5**

The Groovetoons unit can be used to play other devices by connecting the auxiliary cable from 'line in' on the back of the unit to the 'line out' from another device
